Can't remember if I sent this to you already. Rick is VALUABLE in continued disclosure efforts, BUT he should NOT serve as the conduit because of his "past." Future postings should come directly from your office to me -

Victor,

Found the following coment on the virtuallystrange.
 Have you seen this?

"If I may be permitted to offer some advice, I would keep the subject of Rick Doty a very serious arms length away. Because if you show him any encouragment, after chewing up and spitting out Victor Martinez, he may well zone in his sites on Exopolitics. And if he does that, then it will be well and truly curtains."
 - Stuart Miller

What are your thoughts on this, if I may?

Knowing that SERPO is looking too much like the MJ12 release some twenty years ago, in which Doty provided the original telex to Bill Moore, how much would you say Rick is involved?

Bill says he has provided some assistance and then calls him a valuable resource.

Too, I'm still wondering how you were fired for the release process. If I am to believe the latest all the purported emails Bill received were just made up to keep from admitting he no means of contact, except FTP, with Anonymous.

Any thoughts?

G
