To Kit, Rick, Hal, Victor

Thanks, Kit -

All this is reassuring! Nothing I didn't know already. Rick and I are only being talked about because there's no-one else they can talk about... except Victor, who's talked about a little. And they have to talk about someone.

Rick, when we meet you'd better wear your false beard!

Yes, re the drawing (and everything else), the extent of the illogic, intellectual laziness, intellectual dishonesty and sheer stupidity has astonished me. What an object lesson in human nature. Again, you guys are all ten years ahead of me =)

The idea of Anonymous 1 and Anonymous 2 slugging it out on the internet ("He's the fraud! I'm real!") has all the components of heavy farce...

Re: the increasing noise on the Blogs and the para-Serponian web sites. Wayne did send me several to peruse about two weeks ago. I do so about one a day.

The story that it is a hoax and due primarily to Bill and Rick is legion. No connecting of the two of them. Just independent chatter. Lots of stuff about the material since mid-December being patently absurd, a rehash of a 15-year old book, while the early stuff was simply "barely believable." There is widespread discussion about a British

based communications plot, with all the embedded messages and the logs about "legal" and "creative" approvals for the story that is a clear viral marketing scheme. The "Hoax" and then "Hoax admitter" and then "Hoax-hoax admitter" string is now up to five levels. It isn't even possible in principle to tell from the Blogs, ATS, or other sites who believes whom.

But the bad guys are being named: Bill Ryan and Rick Doty. God forbid anyone ever connects the two of you guys...it is so far as if the two of you never heard of each other.

No more discussion of people taking the story seriously, like visitors from the government.

By the way...the issue of the huge data file, turning out to be a child-like protractor drawing did it all in. Absolutely no one noticed that it may have been a drawing, fully intending to be a serious attempt to convey meaning, of something that had been mentioned in one of the first 5 "Releases." Did any of you recognize it? It was an object (I think) mentioned quite early-on. It may not be so silly, after all. Remember what I said...even simple drawings when put in WORD turn out to be megabytes...rename the file and / or put it into a GIF or JPEG and the same drawing drops to 70 kilobytes. Most people on the internet chat rooms including ATS know even less about computers than do I...and that says it all.

That is why I am not reading anything anymore for detail...just sociological gestalt.

I heard a rumor that the original Anonymous may resurface and show the present (since mid-December) Anonymous III to be a fraud. The source was credible, but the back-story makes it murky.

k.
